- ✓ Soft comfort lining

Know your product

- 1 Fold-over Crate Flaps**
Fold over the edges of your bicycle crate for a clean finish and added stability.
- 2 Velcro Corner Straps**
Secure the crate liner firmly to your bicycle crate.
Always fasten all four straps before every ride.
- 3 Corner Zippers**
The four corner zippers allow you to transform the crate liner into a dog bed or flat travel mat.
- 4 Carry Handles**
Strong integrated handles for carrying your dog comfortably over short distances.
Always support the bottom of the bag while carrying.

- 5 Integrated Safety Straps**
Attach both safety straps to a properly fitted dog harness.
Never attach the straps to a collar.
- 6 Padded Interior**
Soft padding keeps your dog comfortable during every ride.
- 7 Water-Resistant Exterior**
Designed to withstand everyday adventures and light rain.
- 8 JetFuel Logo Patch**
Your signature JetFuel label.

How to use

Important: Never use the crate liner in a crate that is loose or damaged.

1. Before you start

The JetFuel Crate Liner is designed to fit a universal 50L bicycle crate.

Before installing the liner

1. Make sure your bicycle crate is securely attached to your bicycle using heavy-duty tie wraps.
2. Use at least 5 tie wraps per long side and 4 tie wraps around the corners.
3. Tighten all tie wraps firmly.
4. Check that the crate cannot move when turning the handlebars.
5. Always inspect your bicycle and crate before every ride.

2. Installing the Crate Liner

1. Place the crate liner inside the bicycle crate.
2. Fold the side flaps neatly over the crate edges.
3. Store the carrying handles inside the crate.
4. Secure all four Velcro corner straps.
5. Adjust the four corner zippers until the liner fits snugly.

Your crate liner is now ready to use.

Safety

Your dog's safety comes first. Never use the product if straps, buckles, seams or attachment points are damaged. Always make sure the crate and JetFuel product are securely installed before riding.

3. Ride Mode, Securing your dog

Before every ride

1. Check the inside temperature of the crate liner with your hand, especially on warm days.
2. Never place your dog inside a hot crate liner.
3. Always use a properly fitted dog harness.
4. Never attach the safety straps to a collar.
5. Attach both safety straps to the harness.
6. Adjust the straps so your dog can comfortably sit and lie down without jumping out.
7. Remove or safely store the leash before cycling.
Never cycle with your dog unsecured.

4. Carry Mode

Using the crate liner as a carrier

1. Lift the crate liner using both carrying handles.
2. Always support the bottom of the bag while carrying your dog.
3. Carry your dog only over short distances.
The crate liner is designed as a convenient transport bag, not as a long-distance carrier.

5. Rest mode Transforming into a dog bed

The crate liner features four corner zippers.

1. Open two zippers to create a comfortable dog bed.
2. Open all four zippers to transform it into a flat dog mat.
Perfect for cafés, parks, holidays or relaxing at home.

CARE FOR IT. REPAIR IT. RIDE ON.

Made for adventures. Take care of it, and it will stay with you for many rides to come.

CLEAN.

Clean regularly with a damp cloth and mild soap. Remove dirt and stains as soon as possible. Always follow the specific washing instructions on the care label.

DRY.

Let your JetFuel product dry completely before storing or using it again. Never store it while wet or damp.

CHECK.

Regularly check straps, buckles, zippers, seams and attachment points for signs of wear or damage. Always check your setup before every ride.

STORE.

Store your JetFuel product clean and dry. Avoid prolonged exposure to direct sunlight, moisture or extreme heat when not in use.

REPAIR.

We believe in repairing rather than replacing. Parts can wear over time that's part of a product that gets used and loved. Contact JetFuel to find out if your product can be repaired.
